

TRUCK - 19 going through the evolutions in the early 1950's in front of former quarters at 1129 Chicago Avenue in WEST TOWN. Since the taking of this picture many of the subjects here in the picture are removed and restored in a new look. Gravity tank of large factory and factory itself, firehouse, and frame building just on other side of firehouse all have faded away either for the new Northwest Expressway or re-habilitation. This apparatus also was changed in 1954, with a new FWD 85 FT Wooden aerial. Circa 1952 - (Stan Helberg)

TRUCK - 19 with former 1946 MACK tractor and old 85 FT aerial in front of former building at May St & Chicago Avenue, in 1952. Circa 1952 - (Stan Helberg)
